PREFACE

Resty

The present publication is the first of its kind in giving important statistical information about education in Indian States. It refers to the year 1945-46. It contains information in regard to twenty-five States only. The remaining States, information from whom has not yet been received, will be covered in subsequent parts.

This publication is not a full report on the educational conditions in Indian States, and as such no attempt has been made to summarise and draw conclusions from the statistics given.

It is hoped that this publication will be found useful by the educationists and the public.

I take this opportunity to express my gratitude to the Administrations in the States, who have supplied the information on which these statistics are based.

SIMLA :

The 21st December, 1948.

TARA CHAND,

*Educational Adviser to the
Government of India.*
